

1. Student ---< Student Course Detail >--- Course

2.

a. Uniqueness: Multiple assignments (exams) can occur on the same date and in the same classroom. By incorporating the Start Time into the UID, each assignment becomes uniquely identifiable.

Scheduling Precision: Including Start Time helps in precisely scheduling and differentiating assignments that might otherwise clash if only the date and classroom were used.

b.

- i. End time must be later than start time
- ii. No overlapping assignments in the same classroom
- iii. Exams must be scheduled within operational hours
